

Our special programs are especially made for our customers, they generally entail explicit customer desires and therefore we will not publish them here.

Also most of the time these programs are so called "Off The Beaten Track Travel" and takes our customers to places where hardly anybody (tourists) comes. This could be a tailor-made trek to a village in the mountains where you will be the guest of the whole village and experience Nepalese culture and hospitality off hand. It could be 2 weeks of absorbing Nepali culture and visiting UNESCO World Heritage sites, or it could be enjoying Nature at its extreme in the many National Parks of Nepal.

But it could also be a trek adapted to your needs, desire and condition and visit the heights of the Himalayas.

In other words our special programming is made for those that have special wishes and desires. And we will go to extremes to fulfil them.
