

We have already put together a number of programs which can be booked directly from our office, either as a complete package or make the program available when you are already in Nepal or want to make your own travel-arrangements. These programs vary in cultural experiences and are based on your general interest. Apart from these total trips also day-excursions can be booked in advance.

For all our programs you have a choice in standard or deluxe arrangements. If you choose standard all accommodation and travel is done with local available means and of course meet all hygienic and safety standards. If you choose for our deluxe programs, then you will be pampered with 5 star accommodation, private vehicle (with driver) transport and in all receive a VIP treatment upon arrival at the airport until your departure.
